Poseidon - Waterproof 720P HD Sports Action Video Camera with Remote Control

Product code: CVNG-DC33-2GEN

Capture every trick, every stunt, and every exciting moment in perfect real-life quality

with the Poseidon - Waterproof 720P HD Sports Action Video Camera with Remote Control. Designed for maximum durability and maximum quality, this rugged waterproof helmet camera is great for all action sports (from extreme motocross to surfing to sky diving) and is the best way to capture and relive all your exhilarating moments forever!

High-definition 720P video and HDMI: Capture your sickest moves and most radical sequences in perfect clarity with the Poseidon Sports Action Video Camera. With 30 fps AVI format motion picture at high-definition 1280x720 resolution, you'll record every single frame and every single action - without missing a second! When you're back home resting, just connect the camera to your TV using HDMI to replay everything back in real-life detail and relive your exhilarating moments again and again!

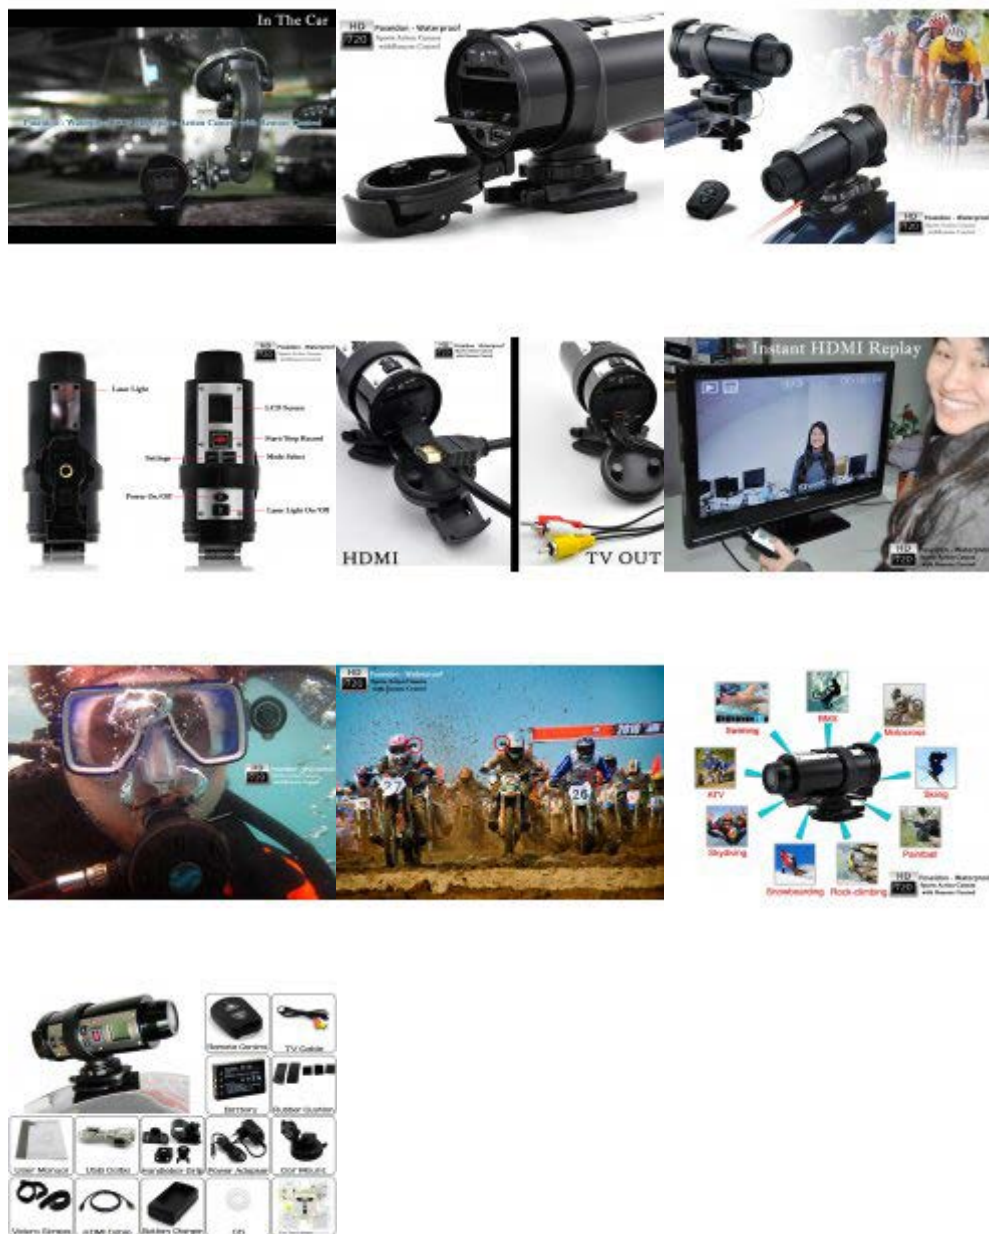

Great for any sport, any location: Extreme sports demand extreme durability. Despite the compact size, this sports action video Camera can take whatever you throw at it and is **completely waterproof**, so you can safely take this camera everywhere you go and never have to worry about harsh weather conditions or mild impacts again. With the Poseidon, you can finally go water surfing and capture every wave (and crash) in perfect high definition, or just strap it on and go exploring underwater.

Total convenience: When it comes to mounting options, the Poseidon makes no sacrifices. With many different options available to cover a wide variety of mounting situations, you will never have a problem finding the perfect location to securely attach this sports action video Camera. Best of all, you also get a remote control and laser light for position checking, so you will always get the perfect camera angle you desire at the exact moment you want it!
